

# GNOME migrations

Welcome to the GNOME 2.32.1 Desktop Environment, a popular multi-platform desktop environment for your computer. GNOME's focus is ease of use, stability, and first-class internationalization and accessibility support. GNOME is Free and Open Source Software and provides all of the common tools computer users expect of a modern computing environment, such as email, groupware, web browsing, file management, multimedia, and games. Furthermore, GNOME provides a flexible and powerful platform for software developers, both on the desktop and in mobile applications..

This page is to track our integration progress to the GNOME 2.32.1 desktop environment.
