

Licenses & Trademarks

Various parts of the distribution come with different licenses.

This page contains links to the relevant licenses and will hopefully expand to list the licenses associated with or relevant to each consolidation.

- [OpenSolaris Binary License](#)
- [Common Development and Distribution License \(CDDL\)](#)
- [GNU General Public License Version 2 | Version 3](#)
- [MIT License](#)
- [Apache License v2.0](#)
- [BSD Licenses](#)

The X consolidation has a [breakdown of the licenses by package](#) and a [license reference page](#)
