

# pkg Cheat Sheet

## Deprecation Notice.

Page retired and any relevant content migrated to new docs site: [docs.openindiana.org](https://docs.openindiana.org)

To see your current package depot setting:

```
oi@openindiana:~$ pkg publisher
PUBLISHER
openindiana.org      (preferred)
opensolaris.org      origin
oi@openindiana:~$
```

See what consolidation certain packages are in:

```
# pkg contents -t set -a name=org.opensolaris.consolidation -o pkg.name,value xterm kernel python-26
PKG.NAME      VALUE
runtime/python-26  userland
system/kernel    osnet
terminal/xterm   X
```

Lists all packages in the consolidation 'osnet':

```
pkg search -r '<set:org.opensolaris.consolidation:osnet>'
```

Lists all installed incorporations

```
pkg search -l -r '<:depend:incorporate:>'
```

Search for all the users delivered by packages

```
pkg search -r :user::
```

To see a package's installed content:

```
oi@openindiana:~$ pkg contents gnupg
PATH
usr
usr/bin
usr/bin/gnupg-pcsc-wrapper
usr/bin/gpg-agent
usr/bin/gpg-check-pattern
usr/bin/gpg-connect-agent
usr/bin/gpg-preset-passphrase
usr/bin/gpg-protect-tool
<snipped>
usr/share/man/man1/watchgnupg.1
usr/share/man/man1m
usr/share/man/man1m/addgnupghome.1m
usr/share/man/man1m/applygnupgdefaults.1m
oi@openindiana:~$
```

Or the other way around: list which package a deployed file belongs to:

```
oi@openindiana% pkg search -l /usr/bin/gpg2
INDEX      ACTION VALUE      PACKAGE
path       file   usr/bin/gpg2 pkg:/crypto/gnupg@2.0.13-0.148
oi@openindiana%
```

To see the dependencies of a package:

```
oi@openindiana% pkg contents -H -t depend -o fmri ogg-vorbis
consolidation/gnome/gnome-incorporation
system/library/math@0.5.11-0.151.1
system/library@0.5.11-0.151.1
```
