

Categories layout

Deprecation warning

The page has been migrated to <https://github.com/OpenIndiana/oi-userland/blob/oi/hipster/doc/categories-layout.md> . Avoid touching this wiki page.

Currently we are moving to categories layout, like pkgsrc or FreeBSD ports. Individual components should be moved to corresponding category as they are touched. In contrast to pkgsrc we use subcategories for related components, for example, library/openssl.

Suggested list of categories:

| Category | Description / FMRIs | Already used |
|---------------|--|----------------------------------|
| archiver | archiver/*, compress/* | yes |
| closed | closed source components | osol should be renamed to closed |
| database | database/*, service/database/* | yes |
| developer | development tools (developer/*) | yes |
| desktop | gnome, enlightenment, common tools (desktop/*) | yes |
| editor | editor/* | yes |
| encumbered | packages which should go to /hipster-encumbered | yes |
| fonts | system/font/*, print/filter/ghostscript/fonts/* | yes |
| games | games/* | yes |
| image | image/* | yes |
| inputmethod | system/input-method/* | yes |
| library | common libraries | yes |
| mail | mail/* | yes |
| meta-packages | metapackages | yes |
| multimedia | (audio/*, codec/*,video/*) | yes |
| network | (service/network/*, network/*) | yes |
| openindiana | illumos and OI-specific software | yes |
| perl | perl and perl modules | yes |
| print | print/* | yes |
| python | python and python modules | yes |
| runtime | runtime/* which have no other dedicated category | yes |
| ruby | ruby and ruby modules | yes |
| shell | shell/* | yes |
| sysutils | security/*, backup/*, test/*, system/*, benchmark/*, etc | yes |
| text | text/* | yes |
| web | web/* | yes |
| x11 | x11/* | yes |
